

Gargoyle Gecko Pet Care Log

A printable feeding, misting, and weight tracking sheet

Use this log to track feeding, misting, weight, and shedding for your gargoyle gecko. Consistent records make it much easier to spot a developing problem early and give a vet useful history if something goes wrong.

Gecko name: _____ Enclosure size: _____

Hatch / acquisition date: _____ Starting weight: _____

Date	MRP fed?	Insects fed	Misted (AM/PM)	Weight (g)	Notes / shed

Weigh monthly on a gram scale, and watch for a thickening or thinning tail, retained shed on toes or eye caps, and any drop in appetite lasting more than a couple of weeks — these are the earliest, most useful warning signs.
